**R.G. GUPTA**  
POLICY/CITY PLANNER

## WITHIN **LAL DORA** AND EXTENDED

### INTRODUCTION

Ministry Of Urban Development on 26.7.2006 set up a Committee of Experts to look into the issues of application of building regulations and development control norms in Lal Dora and Extended Lal Dora and their integration in the overall process of the planned development of Delhi. Shri P.P. Shrivastav,(Chairman) Sh. R.G.Gupta; Policy/City Planner and Ex.A. Commisioner DDA ; Prof. Jamal Ansari; Ex. Director of School of Planning and Architecture; Divisional Commissioner MCD; as members and Chief Town Planner, MCD as convener member.

### LAL DORA OF VILLAGES — DELHI

#### EXECUTIVE SUMMARY OF EXPERT COMMITTEE ON LAL DORA AND EXTENDED LAL DORA

**R. G. Gupta (M: 09811018374)City / Policy Planner**  
email : ram\_gopal\_gupta@yahoo.co.in  
web : www.rgplan.org ; blog. www.ramgopalgupta.blog.com

### 2 BACKGROUND

The process of urbanization over the years has been engulfing the villages in Sub standard areas. Urban Delhi grew fast around them while the villages remained within the confines of their Lal Dora. The close layouts and narrow lanes of old village abadis were conditioned by old (now outdated) historical compulsions of collective security, considerations of mutual interdependence and availability around of vast open agricultural fields.

The villages have been **deprived of their principal**. The areas covered by extension of Lal Dora and agricultural fields around the villages—both acquired & un acquired , became favorite hunting ground of the middle and higher class to satisfy their need of cheap housing & commercial establishment up a large extent. A big list of 1432 such colonies is slated for regularization as of date, many of them around villages.

On 16 Feb 77; MOUD issued suitable orders regarding regularization of unauthorized colonies. It was further specifically clarified (vide Order No. J-13037/113/ 74 / UDI / II-B dated 22 March 77) that “the unauthorized colonies residential and commercial structures located within the ‘Lal Dora’ would also be covered. In 1979 a Working Group was constituted to formulate a Perspective Plan for

the Development of Sub-Standard Areas of Delhi (1980-2000). This included villages as well, but was not followed up. A Mini-Master Plan giving details of physical and financial planning of all the essential services was formulated in 1984, but was not implemented. This was further revised during the period 1991 and onwards up to 96-97 and a few facilities were provided. Another ambitious project Sardar Patel Gramodaya Yojna was inaugurated in 1997 but remained largely unimplemented.

The revised Master Plan–2001 was enforced in 1990, did lay emphasis on integrated development of rural areas. The last comprehensive orders of regularization of unauthorized colonies on Govt. and private lands are of 10- 04- 2004 of MOUD. Unfortunately, the zonal plans, area development plans and redevelopment plans prepared by different authorities did not indicate abadi (Lal Dora and extended Lal Dora) on the maps.

In February 2006 the Ministry of Urban Development constituted a Committee under the Chairmanship of Shri Tejendra Khanna, former Lt. Governor of Delhi, to look into various aspects of unauthorized construction and misuse of premises in Delhi. In its Report (May 2006) the Report it was highlighted the urgency of the need to look into problems of Lal Dora and Extended Lal Dora areas.

Provision of Draft Master Plan – 2021: The urban limits of Delhi are proposed for extension up to interstate boundary leaving one revenue village at the periphery as buffer green. Hemmed as border villages in the east

and the south of Delhi are between highly urbanized areas of Ghazaiabad / NOIDA and Gurgaon, it is highly doubtful that these border villages would be able to escape the wave of urbanization. In this context in Draft MPD-2021 the proposal should have been to increase green / recreational use to 18-20%; and commercial from 3-4% to 5-6% .

### 3 EFFORTS OF GNCTD TO ADDRESS THE PROBLEM OF THE VILLAGES

Last Revenue Settlement was carried out in Delhi in the years 1908-1909. Lands falling within villages abadi (Lal Dora) were not assessed to land revenue, but agricultural fields outside the village abadi were subject to land revenue.

Act was extended to the NCTD in 1951. Under the provisions of this Act, the work of consolidation of Holding was initiated in some of the villages from 1951 and completed in 102 villages by the year 1954. Thereafter, Delhi Land Reforms Act 1954 was enacted and came into force in Delhi. The East Punjab Holding (Consolidated & Prevention of Fragmentation) Act 1948 which continued to remain extended to Delhi was also amended to provide for extension of village abadi while undertaking Consolidation of Holdings. In the Rules framed under the Consolidation Act, common purposes were specified as follows:

*“Pasture lands, cremation or burial grounds, Khalihan, land for keeping cattle, fisheries, tanks, skin flaying center, public latrines, fuel plantation, water channels, training places, well for drinking purpose, sewage tank, market, mela ground, rural dispensary, veterinary center, village theater, gurudwara, temple, mosque or church, drains, community orchards, community center, young farmers club, etc.”*

It is very heartening that GOI & GNCTD have taken cognizance of the increasingly serious problems faced by the villagers of Delhi for no fault of them, & initiated a study of the same so that appropriate measures could be taken at the earliest.

#### 4 PROBLEMS OF THE VILLAGES AND EFFORTS OF DDA & MCD AT ADDRESSING THEM.

There are numerous problems of land use, mixed land use; traffic, width of streets, roads; phirni; absence of parking areas, huge malls, encroachment by outsiders, payment of less compensation, stopping of allotment of alternate plots etc. All these problems listed under have been taken care while making recommendations in last Chapter.

1. Residential, commercial, public & semi public use.
2. Un-authorized construction within and outside Lal Dora / Extended Lal Dora.
3. Household & other type of industries and warehouses.
4. Utter lack utilities & services (water, sewerage, drainage, solid waste management and power).

5. Ill treatment of ponds.
6. Lack of community facilities viz. Health, Education, Security, Safety & Justice.
7. Acquisition of land at low prices.
8. Stopping of alternate allotment of plot.
9. Accessibility of vehicles on narrow roads.
10. Complete lack of parking sites.
11. Problems of mixed land use inside and outside the Lal Dora.
12. Non sanction of building plans.
13. Not getting NOC from Revenue Department of Delhi Govt.
14. Building Control Policy proposed by DDA but not implemented.

15. DDA prepared a redevelopment proposal for Dhul Siras village in Sector-24 of Dwarka & may be taken as an example to follow to the extent possible in other villages.
16. Urban planning should proceed development and not otherwise.
17. System of sanction of building plans so far not being finalized.
18. Liberalizing norms and simplifying the procedure to make villagers Hassle-Free.
19. Making Development Norms for village easy to understand and follow.
20. Upgrading the civic services and environment in villages in order to integrate them with urban areas y.

#### 5 ASPIRATION OF THE VILLAGE PEOPLE & THEIR ASSESSMENT

Villagers, interests groups, leaders of public opinion and others raised various points, heading given under. All these points have been tried to be answered in recommendations.

1. Relating to Lal Dora and Extended Lal Dora boundaries ( 2 points were raised)
2. Relating to relaxation of Development Controls and Building Bye-laws (9 points)
3. Relating to strict Enforcement of Development Control Rules (7 points)
4. Maintenance of Ownership records (1 point)
5. Development proposals (3 points)
6. Liberal Land-use policy (10 points)
7. Other Policy Issues (5 points)
8. Need for planning and regulations (4 points)

The Committee was greatly benefited from its intensive and free and frank interaction with the Hon'ble MP's , elected representatives of the people & other dignitaries. Discussions were with the Hon'ble L.G, Hon'ble C M & Speaker of Delhi proved to be extremely fruitful. They put up 22 points as details given in Chapter-5 & taken care & answered in recommendations.

#### 6 TERMS OF REFERENCE : COMMITTEE'S RESPONSE WITH REFERENCE TO THE PROBLEMS FACES BY THE VILLAGES

The Committee has carefully considered the views and recommendations contained in the Tejendra Khanna Committee Report and the desirability and / or feasibility of integration of Lal Dora and extended Lal Dora areas of Delhi in the overall process of Planned Development of the city.

The following are the main shortcomings in the villages and have to be remedied in the Comprehensive Development and Re-development Plans:

- Lack of Identity due to absence of gate and related Street furniture etc.
- Payments of less compensation than required.
- Lack of status due to non-transparency, awareness & lack of knowledge.
- Entry of non desirable elements, land uses etc.
- Absence of proper access, open spaces & facilities on the periphery.
- Acute shortage of parking spaces.
- Non maintenance of light and air planes in most of the cases.
- Encroachments on Gaon Sabha lands by Public and private sector.
- Need for commercial potential.

All these and points have been taken care in the chapter of Recommendations.

#### 4 RECOMMENDATIONS

##### 1. Transparency in Land Records and Permission Process.

- (i) Complete property ownership / possession in Lal Dora / Extended Lal Dora with location of villages.
- (ii) Knowledge of Master Plan and concerned Zonal Plans by explaining and propagating them again and again.
- (iii) Individual Village Development / Redevelopment Plans & Revenue maps with clarifications required by the villagers.
- (iv) Demarcation of 'Gaon Sabha' Lands and extent of encroachments.
- (v) Land Use maps, Building Footprints and Floor-wise Building.

##### 2. Strategy of awareness and incentive based Development.

- A. **Awareness Campaigns**
  - (i) Comprehensive development / redevelopment
  - (ii) Make more intensive use of their land by forming Cooperatives or Village Group Housing Societies for planning, development, redevelopment, laying of different types of infrastructure, Management and maintenance.
- B. **Planning for improvement.**
  - (i) Local Area Plans (LAPs) from qualified experts from the open market. The Local Area Plans should address the all the common acute problems of villages.
  - (ii) Accordingly, the Local Area Plans should have:
    - (a) Land use for the next 20 years,
    - (b) Judicious mix of land use, with adequate commercial component.
    - (c) Reflect village characteristics in LAP with village haat and food bazaar.
    - (d) Permit non-residential usages both as a stand-alone use on a plot or mixed with residential use.
    - (e) Provide adequate car parking with 30% of FAR for commercial components to make it self-sustaining economically.
    - (f) Village to be linked with the Metro lines and stations if possible in boosting its development and economy.
    - (g) 20% of the village abadi land should be earmarked in the vicinity for expansion and provision of facilities for the village.

- (h) In case of large-scale acquisition of land village abadi areas are integrated in the specific scheme of planned development.

##### C. Development Control Norms / Regulations

- (i) A tripartite arrangement among the community, the local government and the private entrepreneur to achieve comprehensive development / redevelopment
- (ii) To retain their existing houses villagers should be free to do so; provided they limit the building height to a maximum of 15 M . The existing exemption of construction should continue under supervision of registered architect.

Plot Size	Ground Coverage	FAR	Subject to conditions
2000-3999 sq. m.	40%	400	given below
4000 sq. m & above	40%	500	-do-

(a) Minimum of 12 m wide road will be provided. Where land for road-widening is surrendered (free of cost) from the plot area, the permissible FAR will be proportionately increased as TDR incentive.

(b) Other infrastructure norms – as prescribed in the Master Plan for Delhi with the exception that minimum set-bak of 3m should be provided on all sides.

(c) Car parking norms – as prescribed in the Master Plan for Delhi. Multi-level underground parking in basement up to the envelop-line.

(iv) Left over requirement of parking by constructing multi-storied parking lots

(v) Villages should plan for maximum possible commercial space and would apply to commercial structures as well.

(vi) In Extended Lal Dora areas, the list of permissible land-uses should include group housing, commercial centers, specialized institutions, non-polluting, non-nuisance creating House-hold industries and recreational / amusement parks.

##### 3. Task Force mechanism to give focused attention to villages

- (i) Village Development Task Force (VDTF)-tripartite partnership arrangements involving the village community, the public agencies and the Private Sector.
- (ii) Funding of VDTF may be met out of Plan Funds say under the Jawahar Lal Nehru National Urban Renewal Mission (JNNURM)

(iii) Trunk services to be provided by MCD/ Jal Board etc. at their own cost; peripheral services to be shared by the beneficiary-colonies/villages and the internal services to be met by the development under the LAP (Local Area Plan) for the village.

(iv) With involvement of the Private Sector, project self-financing and self-sustaining.

**Special consideration for the villages**

Mixed Land Use and Permissible Activities in LD/ELD areas

(i) To be treated more liberally than in a normal urban residential colony. Existing institutions (socio-cultural, educational, religious etc.) should also be permitted to continue till they are relocated as per LAP ensuring a minimum ROW of 24m of the abutting road.

(ii) All these economic activities should be allowed to continue till they get reorganized in a planned manner under the IAP

(iii) Activities prohibited under GOI shall not be permitted in Lal Dora / Extended Lal Dora.

(iv) Others should be permitted to continue. In fact, LAP should be so designed as to facilitate their continuance and growth and their smooth transition from undesirable or untenable locations to properly planned areas.

(v) Villages with heritage structures & those in reserved forests or in the Ridge area.

(vi) All kinds of encroachments on the Gaon Sabha land in the heritage and reserved forest villages should be removed and they should be converted to green.

**Interim Arrangements**

(i) Till the LAPs are prepared, the existing non-residential activities should be frozen at their present level.

(ii) An affidavit from the applicant should be accepted as proof of ownership.

(iii) Land allotted in Extended Lal Dora under consolidation proceedings, should be allowed to be sold legally by the owners.

**Gaon Sabha Land.**

Special drives should be organized to get encroachments vacated.

**Rehabilitation Measures**

Alternative occupation in terms of industry/work-centre wherever the agricultural lands of the villagers are acquired.

**Conservation Measures**

Preserve the handicraft, the heritage and historical character of the village

**Compensation Measures**

Allotment of plots and should be resumed and care should be taken that plots are given in the neighborhood.

**Pilot Projects to serve as demonstration models**

Mehrauli-Kishangarh, mandi, Mandavli-Fazalpur and Sarai Kalekhan, Nizamuddin Basti

Other Sub-standard areas e.g. Unauthorized / Regularized colonies, JJ-Clusters, Slum pockets and special areas as defined in the Master Plan

**Strategy of development / redevelopment recommended above for villages could gainfully be extended to other sub-standard areas of Delhi.**

**DISTRICTS**

THE POPULATION OF THE DISTRICTS IN THE NATIONAL CAPITAL TERRITORY (NCT) OF DELHI

NAME	STATUS	POPULATION CENSUS 1991-03-01	POPULATION CENSUS 2001-03-01	POPULATION CENSUS 2011-03-01
